

Jecho Laboratories Job Opportunity

TITLE: Senior Scientist (Process Development)

LOCATION: Frederick, MD

REQ#: 18-007

Company Overview: Jecho Laboratories, Inc. (Jecho) is a biopharmaceutical company developing innovative therapeutic biologics, including monoclonal antibodies, cytokines, immunotoxins, and vaccines. The company headquarters is in Frederick Maryland, USA.

We are seeking a Senior Process Development Scientist to join our R&D in Frederick, MD. Qualified individuals will play a leading role in downstream process development for bio-therapeutics. The candidate will work independently on experiment design, data analysis, summary and report. The candidate is expected to be well organized, multi-functional and self-motivated.

Essential Job Functions:

- Perform literature search and design experiments and processes with sound scientific rationale.
- Independently design and conduct experiments in downstream recovery and purification process development.
- Design and conduct in-process assays such as protein electrophoresis and HPLC.
- Plan and conduct tech transfer runs, write development and tech transfer reports, and participate in other tech transfer activities.
- Generate, evaluate, and maintain scientific data in a highly organized manner.
- Supervise junior PD staff.
- Collaborate and coordinate with colleagues in other departments.
- Write scientific proposals, progress reports and scientific publications.

Minimum Requirements:

- Ph.D. in biological sciences, biotech/bioengineering or other related areas. 5+ years of working experience in pharmaceutical or biotechnology field.
- Strong hands on experience with downstream process development of recombinant biologic products expressed in bacterial/mammalian cells. Working knowledge chromatographic systems and other process and analytical instrumentation.
- Diverse knowledge and experience in various relevant areas, including but not limited to molecular/cell biology, biochemistry, neuroscience, immunology, and others.
- Capable of performing multiple functions in a fast-paced environment.
- Strong technical writing and presentation skills.
- Excellent record keeping abilities to adequately record process development activities.
- Understanding of general FDA regulatory requirements associated with biological approval for human use. GMP experience is a plus.

Compensation:

- Jecho offers a competitive salary and excellent benefits package, including health insurance, dental/vision insurance, short-term and long-term disability insurance, and 401(k) retirement plan.
- Jecho is an equal opportunity employer.
