

## Jecho Laboratories Job Opportunity

**TITLE:** Process Development Scientist - Upstream  
**LOCATION:** Frederick, MD  
**REQ#:** 19-004

**Company Overview:** Jecho Laboratories, Inc. (Jecho) is a biopharmaceutical company developing innovative therapeutic biologics, including therapeutic monoclonal antibodies, cytokines, immunotoxins, and vaccines to address a broad range of infectious diseases as well as treatment of cancer. The company headquarter is in Frederick Maryland, USA.

We are seeking a Process Development Scientist to join our R&D team in Frederick, MD. Qualified individuals will play an important role in upstream process development for bio-therapeutics. The candidate must work independently on experiment design, data analysis, summary and report. The candidate is expected to be well organized, multi-functional and self-motivated.

### **Responsibilities:**

- Independently design and conduct experiments for upstream process development with sound scientific rationales.
- Perform PD studies from shake flask to benchtop bioreactor, as well as the associated assays.
- Generate, evaluate, and maintain critical data in a highly organized manner.
- Write scientific proposals, protocols, progress reports, and scientific papers.
- Supervise junior staff in a PD team.
- Collaborate and coordinate with colleagues.
- Assist tech transfer activity such as providing operation parameters, writing technical report and perform tech transfer.

### **Minimum Requirements:**

- Ph.D. in biological science, biotech/bioengineering or other related areas. 1-2 years' experience in pharmaceutical or biotechnology field.
- Strong hands-on experience in recombinant protein expression in mammalian cells, clone generation, process development and scale up.
- Working knowledge with cell culture bioreactors.
- Diverse knowledge and experience in various relevant areas, including but not limited to molecular/cell biology, biochemistry, neuroscience, immunology, and others.
- Capable of performing multiple functions in a fast-paced environment.
- Strong technical writing and good presentation skills.
- Excellent record keeping abilities to support drug development and IND filing.
- Understanding of FDA regulatory requirements related to biologicals approval for human use.

### **Compensation**

- Jecho offers a competitive salary and excellent benefits package, including health insurance, dental/vision insurance, short-term and long-term disability insurance, and 401(k) retirement plan.
- Jecho is an equal opportunity employer.
