

Jecho Laboratories Job Opportunity

TITLE: Research Associate
LOCATION: Frederick, MD
REQ#: 19-002

Overview: Jecho Laboratories, Inc. (Jecho) is a biopharmaceutical company developing innovative biologics therapeutics, including monoclonal antibodies, cytokines, immunotoxins, and vaccines to treat a broad range of diseases such as cancer, immune disorder and infectious diseases. The company is headquartered in Frederick, Maryland, USA.

We are seeking a Research Associate to join our R&D discovery team in Frederick, MD. Qualified individual should be well versed in essential molecular biology, biochemistry and cell biology techniques, and a quick learner in mastering the state-of-art drug discovery platforms to contribute to our expanding pipelines.

Essential Job Functions:

- Perform molecular biology experiment such as RT-PCR, cloning, expression vector construction, and library construction.
- Perform biochemical and biophysical experiment such as small-scale protein expression and purification; protein characterizations such as SDS-PAGE, WB, ELISA, and BLI, etc.
- Generate and maintain experimental data in a highly organized manner. Provide reports for evaluation by peers and management.

Minimum Requirements:

- Bachelors, or Masters in biology or biochemistry. 0-2 years' experience in pharmaceutical or biotechnology field.
- Extensive hands on experience in molecular biology, cell biology, and biochemistry experiments.
- Good command of computer skills including Excel, Word, PowerPoint, and basic analytical tools.
- Highly self-motivated, organized and keen awareness of timelines, able to perform with minimum supervision.
- Possess good work ethics and must be a team player.

Compensation:

- Jecho offers a competitive salary and excellent benefits package, including health insurance, dental/vision insurance, short-term and long-term disability insurance, and 401(k) retirement plan.
- Jecho is an equal opportunity employer.
