

## **Jecho Laboratories Job Opportunity (please submit resume to [hr@jecholabs.com](mailto:hr@jecholabs.com))**

**TITLE:** Process Development Associate- Downstream  
**LOCATION:** Frederick, MD  
**REQ#:** 20-006

**Overview:** Jecho Laboratories, Inc. (Jecho) is a biopharmaceutical company developing innovative therapeutic biologics, including therapeutic monoclonal antibodies, cytokines, immunotoxins, and vaccines to address a broad range of diseases as well as treatments for cancer and infectious disease. The company is headquartered in Frederick, Maryland, USA.

We are seeking a Process Development Associate to join our R&D team in Frederick, MD. Qualified individuals will execute small-scale downstream process development and analytical studies. The ideal candidate will exercise appropriate technical judgment in the design and execution of experiments and the analysis and interpretation of data and results. The candidate will receive general instructions from a supervisor for routine work and assignments. The candidate is expected to be eager to learn, highly productive, well-organized, and self-motivated.

### **Essential Job Functions:**

- Conduct experiments in protein recovery and purification process development using column chromatography and various other technologies.
- Conduct routine biological product handling, and physical and biochemical analysis, such as HPLC, SDS-PAGE, UF/DF, Western Blot, and ELISA.
- Work with Discovery, Upstream Process Development, and Analytical Development to provide support in material generation and analysis.
- Generate and maintain experimental data in a highly organized manner. Prepare technical reports.

### **Minimum Requirements:**

- Bachelor's or Master's degree in biological science, biochemistry, bioengineering, or related fields.
- 0-3 years' experience in the pharmaceutical or biotechnology field.
- A good understanding of antibody and recombinant protein structure and purification mechanisms.
- Basic knowledge of protein chemistry and analytical methods
- Ability to work effectively in a team. Motivated and willing to work on a variety of tasks.
- Basic computer software skills in Excel, Word, and PowerPoint.
- Hands-on experience with the chromatographic instrument, DOE software, and cell culture/fermentation is a plus.

### **Compensation:**

- Jecho offers a competitive salary and excellent benefits package, including health insurance, dental/vision insurance, short-term and long-term disability insurance, and 401(k) retirement plan.

### **Disclaimer:**

- Jecho Labs is an equal-opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
- This job description may not include all assigned duties, responsibilities, or aspects of the job described, and the employee may be required to perform additional functions.

- The job description is subject to change by the employer as the organizational needs and requirements of the job change.
