

## **Jecho Laboratories Job Opportunity (please submit resume to [hr@jecholabs.com](mailto:hr@jecholabs.com))**

**TITLE:** Scientist-Drug Discovery

**LOCATION:** Frederick, MD

**REQ#:** 22-008

**Overview:** Jecho Laboratories, Inc. (Jecho) is a biopharmaceutical company developing novel medicines for the prevention and treatment of cancer and infectious diseases. The company is headquartered in Frederick City, Maryland, USA.

We are seeking a highly motivated Discovery Scientist to join our R&D team in Frederick, MD. The candidate is expected to contribute significantly to our expanding cancer immunotherapy pipeline through drug discovery and technology development effort. This is an outstanding opportunity to launch a successful career in the drug discovery field.

### **Essential Job Functions:**

- Master the knowledge of current leading biologics discovery platforms. Develop the technology know-how to build and enhance the in-house capacity to meet the company needs.
- Perform lead discovery with various in-house platforms and through collaborations. Lead or support preclinical studies of new drug candidates. Establish new SOPs and train research associate in the process.
- Be the champion in proposing and developing industry leading discovery technologies and biologics modalities, as well as developing corresponding therapeutics.
- Become the source of information in aspects of biologics discovery and make constructive suggestions to senior leaderships for strategic decision makings.
- Adhere to good record-keeping practice. Present data both internally and externally. Contribute to document preparations for drug filings and patent applications.

### **Minimum Requirements:**

- Ph.D. in life sciences.
- Highly trained and competent in molecular biology and biochemistry techniques. Skillful in RT-PCR, cloning, recombinant protein expression and purification.
- Have a good foundation of immunology and understanding of the principles of many of the immunoassays and high throughput assays. Experience in performing immunoassays/high throughput assays is a plus.
- Have excellent command of essential bioinformatics tools for use in designing experiment and data analysis.
- Have a good understanding of the concept and process of biologics discovery. Experience in biologics discovery is not necessary but highly desirable.
- Evidence of past success in research including good quality publications in relevant field is essential.
- Must be able to handle multiple tasks simultaneously and efficiently.
- Must be a team player who has entrepreneur spirit and functions well in a matrix environment.
- This position may require you standing/sitting/walking in the lab for routinely 8 hours and sometimes up to 12 hours, as well as lifting weight up to 30 pounds.

**Compensation:**

- Jecho offers a competitive salary and excellent benefits package, including health insurance, dental/vision insurance, short-term and long-term disability insurance, and 401(k) retirement plan.

**Disclaimer:**

- Jecho Labs is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
- This job description may not be inclusive of all assigned duties, responsibilities, or aspects of the job described, and the employee may be required to perform additional functions.
- The job description is subject to change by the employer as the organizational needs and requirements of the job change.
